Call: 443-625-5430 for urgent scheduling.

Fax: 443-356-4092 and we will provide
direct scheduling with patient for optimum
convenience.

Screening Exams for Early Detection

3D Mammography (screening)

Fast convenient baseline or routine annual exam, made more comfortable with SmartCurve™.

Bone Density

Answers about bone thinning, mineral loss, fracture risk and status of osteoporosis.

Diagnostic Exams for Clinical Answers

3D Mammography (diagnostic)

Exam to find answers to pain, lumps or in follow up to a breast cancer diagnosis

Breast MRI

Advanced technology used to identify issues within the breast for women with increased risks.

Breast Biopsy/ Aspiration

Simple procedure performed by expert radiologists to remove abnormal tissue from the breast.

Ultrasound

Safe, painless exam to diagnose a wide variety of conditions throughout the body. Breast, abdominal, pelvic, vascular exams and more are available.

Enhanced Services:

Prior Studies: Our team will coordinate record transfer and obtain prior studies from past providers.

Portal: Patient records and images can be accessed through the Provider Portal.
