Welcome to our Program

MedStar Georgetown University Hospital/
MedStar Washington Hospital Center
Residency Program in Ophthalmology 2016-2017
“Is it not a privilege to be one of the founders of an institution established for the relief of human misery and the restoration of sight and hearing?”

-- Bishop Satterlee, announcing campaign to build Episcopal Hospital. Episcopal was built in 1897 and is our direct predecessor.
We are committed to:

• Superior medical and surgical education
• Compassionate, ethical and efficient medical and surgical eye care
• Your training
• Your success
Our Program:

• 18 Residents
• Over 150 Dedicated Faculty in All Subspecialties
• 7 Clinical Sites
• Focus on Autonomy and Clinical Confidence
• 119 Years of Resident Education, Patient Care and Innovation
Clinical Experience

In 2015-2016 Residents Performed (at MWHC alone):

• 22,000+ clinic procedures
• 13,000+ cataract/general evaluations
• 4,500+ glaucoma evaluations
• 3,000+ retina evaluations
Surgical Experience

The 2016 Senior Residents Performed:

• 2250+ Class I surgeries in all rotations
• 4,000+ total resident surgeries
• First year residents begin assisting in surgery early in the academic year
• Residents begin performing cataract surgery as primary physician in the second year
Quality: Patient Care

One of city’s largest, most complete facilities, with comprehensive ophthalmology clinics and subspecialty clinics in:

- Glaucoma
- Ocular motility
- Vitreoretinal disease
- Low vision
- Oculoplastics
- Orbital disease
- Uveitis
- Contact lenses/Dry Eye
- Cornea and external disease
- Neuro-ophthalmology
We’re All About Residents

• Protected Lecture Time
• Limited Number of Fellows
• Procedures: LASIK, Premium Lenses, K-Pro, Glaucoma Surgery, DSAEK, intravitreal injections, etc.
• Opportunity for international/mission trips
• Free Food!
Resources

- Georgetown University
- Wet Labs
- Surgical Simulator
- On-Site Ocular Pathology Lab
- Attendance at National Training Programs
- Access to Superb Medical Libraries
- GME Support
- Practice Experience of More Than 150 Ophthalmologists
Cutting-Edge Research

- Majority of Residents Present at National Meetings
- Resident Research Day
- Full-Time PhD Research Faculty
- Faculty Involvement in National Studies
Accreditation

Full Accreditation received from the Accreditation Council for Graduate Medical Education (ACGME) at our last Site visit in 2011. Next site visit to occur in 2018.

Commendation from ACGME received in January, 2015 and 2016 for “demonstrated substantial compliance” with program and institutional requirements.
Residency Program Affiliates
MedStar Washington Hospital Center

Jay M. Lustbader, MD
Michael Summerfield, MD

- Home Base
- Fully-supervised resident-run clinic
- Level I Trauma Center
- Excellent learning environment
- Extensive and varied pathology
MedStar Georgetown University Hospital

Jay M. Lustbader, MD

- Work directly with attendings in their practices
- Ophthalmic Pathology experience
- Refractive Surgery training
- Basic science faculty available for research
DC Veterans Affairs Hospital
Soo Y. Shin, MD

- Resident-run clinic
- 2nd year cataract surgery
- Full subspecialty faculty
Walter Reed National Military Medical Center

Marcus Colyer, MD

- 1st year rotation
- Glaucoma and retina experience
- Experience in a large general ophthalmology setting
Inova Fairfax Hospital

Tofik Ali, MD

- General and subspecialty clinics and operating room experience during 2\textsuperscript{nd} year rotation
- Private surgery center experience
Malcolm Grow Medical Clinics & Surgery Center

Chantal Cousineau Krieger, MD

• Comprehensive ophthalmology clinical and surgical experience and refractive surgery experience in the third year

• Exposure to Military Ophthalmology
Children’s National Medical Center

William Madigan, MD

- Nationally recognized pediatric hospital
- Birthplace of Pediatric Ophthalmology
- Exposure to multiple rare inherited disorders
First Year Rotations:

MedStar Washington Hospital Center PLUS

- MedStar Georgetown University Hospital
- Walter Reed National Military Medical Center
2nd Year Rotations:

**MedStar Washington Hospital Center PLUS**

- 2-month pediatric rotation through Children’s National Medical Center
- 2-month rotation through MedStar Georgetown University Hospital with experience in Cornea, Pediatrics and Neuro-Ophthalmology
- 4-month rotation through DC Veterans Affairs Hospital
- 2-month rotation through Inova Fairfax Hospital
- Dedicated research time
- Ocular Pathology
Rotation Schedule: Year 3

MedStar Washington Hospital Center PLUS

• DC Veterans Affairs Medical Center
• Malcolm Grow Medical Clinics & Surgery Center
• Refractive Surgery at Malcolm Grow and Walter Reed
• Optional Mission/International Trip
Academics

• Wednesday academic afternoon
• Visiting Professor Series
• Journal Clubs
• FA Conferences
• MRI Rounds
• Symposia
• WORC
• Grand Rounds
• Morbidity and Blindness Rounds
• Surgical Simulation
Employee Benefits and Compensation

• Health and dental insurance
• Paid vacation
• Meal tickets
• Free parking
• Competitive salaries

2016 Graduates:

Amelia Fong Fellowship – Oculoplastics – U of Texas Southwestern

William Grover Fellowship – Cornea – Wilmer Eye Institute/Johns Hopkins U

Michael Korchak Fellowship – Cornea – Cornell-Weill Medical Center

Chad Marcantonio Fellowship – Retina – Retina Center of Ohio

Peter Murr Private Practice – New Jersey

Auvni Patel Private Practice – New Jersey
What this graduate has to say about our program:

“I felt incredibly well-prepared, both medically and surgically, for my fellowship year. Residency at MedStar Georgetown University Hospital/Washington Hospital Center gave me excellent exposure to a vast spectrum of pathology, and I had an extremely solid skill set from which to start my retina fellowship.”

Lauren Taney, MD
Class of 2013
Medical Retina Fellowship from 2013-2014 at Tufts-New England Medical Center
What this graduate has to say about our program:

“I had a wonderful residency experience at Washington Hospital Center/Georgetown University. In addition to being exposed to a wide range of medical and surgical pathology and being extremely well-prepared for fellowship (and for the board exam and life as an attending!), I am incredibly grateful to the amazing mentors and attendings that I had the opportunity to learn from.”

Victoria Addis, MD
Class of 2014
Glaucoma Fellowship at Kellogg Eye Center, University of Michigan (2014-2015)
Assistant Professor of Ophthalmology, Scheie Eye Institute, University of Pennsylvania (2015- )
What this graduate has to say about our program:

“I can’t say how lucky I feel to have had the opportunity to train at Georgetown/WHC. I don’t think many institutions work so hard to look after the residents. The attendings are there just for you to learn, the faculty and staff are like family, and surgical experience is top. I’d also be willing to wager the residents have more fun together than any program in the country.”

Will Grover
Class of 2016
Cornea Fellowship at Wilmer, Johns Hopkins
Meet the Chiefs:
Kevin Wells, MD
Class of 2017
Graduate: Univ. of Texas Medical Branch SOM
Undergraduate: Texas A&M University

“This program provides an incredibly diverse patient population that presents with an array of pathology. My experiences during residency have provided me amazing clinical, procedural, and surgical opportunities. The resident-run clinic provides the ability to become an autonomous physician while having the support and guidance of expert clinicians. If I could do this process all over again, I would undoubtedly come to this program.”
“Our resident-run clinic has some of the most interesting and diverse pathology you’ll see anywhere in the country. The hands-on training you get here is second-to-none. The best part of this program is the residents. We’re one big happy family, y’all.”

Meet the Chiefs:
Bilal Yousufzai, MD
Class of 2017
Graduate: Medical College of Georgia
Undergraduate: University of Georgia
Our program offers excellence in education and experience, providing comprehensive, compassionate care to all of our patients. Join us!
