

Taylr Jesinger, MHA

Senior Project Manager, MedStar Institute for Innovation

Taylr Jesinger is the senior project manager at the MedStar Institute for Innovation (MI2) where she leads various projects across multiple domains and hospitals at MedStar Health. Her projects focus greatly on innovation in healthcare delivery, which include telehealth and the reduction of hospital readmissions. Prior to joining MI2, she was the administrative resident at MedStar Washington Hospital Center.

Taylr completed her master's degree in health administration at the University of Kentucky graduating with high honors. During her full-scholarship graduate program she worked in sociological and entrepreneurial research at the University of Kentucky's Institute for Workplace Innovation (iWin) and for Lexington Chamber of Commerce, Mayoral Office. She spent copious time in rural Kentucky studying rural health issues and economic disparity where she became an advocate for underserved populations and for children living in poverty and high-risk environments.

Taylr received her bachelor's degree in neuroscience from the University of Southern California where she worked in molecular biology research at the USC Norris Comprehensive Cancer Center. Prior to her undergraduate studies, she was selected for a molecular biology research fellowship at Harbor-UCLA Medical Center, which crystallized her decision to pursue a career in healthcare. She received academic and leadership scholarships throughout her time at USC and while serving as feature twirler and leader with the USC Trojan Marching Band. She represented the USA on several international tours including China, Italy, and at the World Expo in Japan. She now coaches and performs at children's hospitals and for various youth health-related events.
