

MedStar Medical Group

MedStar Medical Group at Hyattsville *About Our Practice*

Before and After Hours

If you are experiencing a life-threatening emergency, call 911.

If you need urgent, but not emergency, assistance during non-business hours, please call the office. Our answering service is available before and after business hours. A provider is on call 24 hours a day for urgent matters. If you feel you need to be seen, please visit the closest MedStar PromptCare location.

Emergency Office Closing

There are times when weather conditions and other circumstances may not allow our staff to get to the office, or will require early closing. When questionable circumstances exist, please call the office before leaving for a scheduled appointment.

Phone Calls

You and your care are important to us. All calls of an urgent nature will be routed to the appropriate clinical staff member for response. Any non-urgent phone calls will be routed to the appropriate staff member and returned by the end of the business day.

Appointments

- All patients may select their own primary care providers, and every effort will be made to honor that selection.
- Please bring the following with you for your appointments:
 - Valid photo ID
 - Current insurance information
- We ask all patients to arrive 15-20 minutes prior to their appointments.
- If you have a co-pay, payment is required at the time of service in accordance with your insurance company guidelines.
 - We offer the following payment options: Visa, MasterCard, Discover, cash or checks. We also can work with you to provide information on the health insurance exchange, the MedStar charity care policy and our sliding fee structure.
- Please bring all prescribed and non-prescribed medications and supplements to your appointment.
- If you arrive more than 15 minutes late for your appointment, you may be asked to reschedule.
- **Online appointments made easy**
 - Appointments may be made online by going to www.MedStarHealth.org.

Referrals

- When your physician recommends a specialist evaluation or a diagnostic test that requires a referral, we will make every effort to provide this for you at the time of check out. Some referrals require pre-authorization and cannot be provided immediately. Our staff will contact you once your insurance carrier approves the request.
- When requesting a referral, please provide all information pertaining to your appointment. We are not able to back-date referrals.
- Any regular referrals (not new) must be requested at the time of your visit.

MedStar Medical Group

Prescription Refills

- There is a 48-hour turnaround time for prescription refills. Please provide the name of the medication, strength or milligrams, how it is taken, and the phone number of your pharmacy. This will help us quickly process your refill(s).
- If you need a medicine urgently, we will make every effort to respond to you that same business day; however, we recommend that you request a prescription refill when you have at least a three-day supply.
- Controlled substances will require physician authorization and pick-up by the patient or a designated person with proper identification. Refills will only be made during regular business hours and should be requested to the prescribing provider.
- A number of medications require pre-authorization by the insurance carrier prior to being supplied by your pharmacy. Please allow 72 hours to complete this request.
- Please remind your provider of any medication allergies or other medications you are taking from another provider.

Lab Results

If your doctor requests laboratory tests, you will be referred to a lab that participates with your health insurance plan. If on-site lab draws are not available, we will help you locate a participating lab site that is convenient for you. Lab and test results are available through the MedStar patient portal, myMedStar.org.

Secured Patient Portal – myMedStar.org

MedStar Medical Group is pleased to offer our patients electronic medical records. These allow our providers to have their patients' complete medical histories at their fingertips. Tests, diagnoses, conditions, prescriptions and physician notes are easily accessible to your provider. They are also easier to share with specialists and other medical providers who are caring for you. Through the myMedStar.org patient portal, you can request prescription renewals, appointments and physician referrals; view summaries of your visit(s), showing treatments and care/discharge plans; exchange messages securely with your MedStar physician; send your medical information securely to other healthcare providers; and review most test results.

Visit MedStarHealth.org for more information.
