Adult Vaccines Now Available at Drug Stores

MedStar Family Choice is part of the CVS Caremark Vaccination Program, which includes over 58,000 drug stores nationwide (including CVS pharmacies, MedStar retail pharmacies, Target, Walmart, Walgreen's, Rite Aid, Giant, Safeway as well as other pharmacy chains). MedStar Family Choice offers this program for adults 19 years and older. The program provides immunizations for influenza, varicella, zoster, hepatitis A & B, pneumonia, and HPV. ***Travel vaccines are not included.***

Vaccines are given according to the published recommendations by the Centers for Disease Control and Prevention (<https://www.cdc.gov/vaccines/index.html>). Flu shots can be administered on a walk-in basis. For all the other immunizations, members should call ahead to make sure the pharmacy has the needed vaccine in stock. Primary care providers will be notified when members receive a vaccine.

For questions about coverage for any medication formulary or non-formulary, please call **800-905-1722, option 2.**
