

MedStar Family Choice - Maryland HealthChoice Quick Reference List

This **MedStar Family Choice - Maryland HealthChoice Quick Reference List** is not all-inclusive but represents a summary of prescription coverage within select therapeutic categories. This useful reference tool can assist medical providers in selecting therapeutically appropriate and cost-effective products for their patients.

This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. This document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

Please visit the MedStar Family Choice (MFC) website at www.medstarfamilychoice.com for complete coverage information. You are welcome to call MFC at 1-800-905-1722 to inquire about coverage for any medication, formulary or non-formulary.

FOR YOUR INFORMATION: This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. In most instances, a brand-name drug for which a generic product becomes available will require prior authorization or will no longer be covered upon release of the generic product to the market. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

An exception process may exist for specific clinical or regulatory circumstances that require coverage of a removed medication.

§ Generics are available in this class and should be considered the first line of prescribing.

¹ MedStar Family Choice limits "new" opioid analgesic prescriptions to a 7-day supply. A "new" prescription means that a patient has not had an opioid medication filled under MedStar Family Choice in the preceding 90 days or had one short-acting opioid at ≤ 50 morphine milligram equivalents (MME) per day in the previous 90 days, filled within 7 days of a subsequent request. New prescriptions for more than 7-day supply will require Prior Authorization.

For complete information regarding the requirements of the Maryland Medicaid Opioid Drug Utilization Review for opioid prescribing, please visit:
