Letter to Teachers After Suspected Head Injury

Date: ___/___/____

RE: (Student’s Name) ____________________________________________

The above named student is currently being evaluated for a concussion. Symptoms associated with this type of injury may include, but are not limited to, headache, dizziness, difficulty concentrating, fatigue, fogginess, sensitivity to light and noise, changes in social or academic interaction, and difficulty reading. Symptoms may become pronounced later in the day and/or may return with higher level thinking tasks and cognitive exertion. Please let me know if you notice any changes in this student’s academic or social behavior in class, as this will assist us in the follow-up care they receive. Thank you for your assistance with this important matter. If you have any questions or concerns, please do not hesitate to contact me.
